Tarkett Sports

The One-Stop-Shop for Sports Surfacing Solutions

Tarkett Sports, the largest and most reliable entity in the sports surfacing industry works closely with you in order to provide a customized solution for any and all your sports surfacing needs. The Tarkett Sports surfacing range includes traditional and innovative hardwood and synthetic basketball, volleyball and multi-purpose gymnasium courts, weight room and floor protection systems, indoor and outdoor running tracks and its world-renowned FieldTurf brand of artificial turf.

The Tarkett Group, established in 1886 and now with over \$2.5 billion in annual sales, contributes to Tarkett Sports' reputation as the most financially stable and trusted indoor sports surfacing company on the planet. As the global leader in sports, residential and commercial flooring, Tarkett's 28 international production sites allow it to serve its customers in over 100 countries, producing over 10,000,000 square feet of flooring per day, enough to cover 125 football fields!

The Leaders in Environmental Responsibility

All Tarkett Sports surfaces are developed, produced and installed with a concentration on sustainability and a commitment to protecting the environment, providing additional LEED contribution opportunities for customers. The company calls this focus on sustainability and the environment 'Environmental Intelligence' and all company personnel strive to exemplify this philosophy in all aspects of the business. As the leaders in environmental responsibility, Tarkett Sports has been recycling its surfacing in 5 of their own international recycling centers for over 50 years.

DROPZONE

Made from 100% solid recycled rubber, Dropzone is a non-absorbent and non-porous product that is extremely quick and easy to maintain. The product is also slip resistant and provides for ideal traction and dimensional support making it an ideal surfacing solution for stadium tunnels, ice arenas and weight room flooring applications.

TILE: 24" x 24"

ROLL: 48" x 8mm

DROPZONE SPECKLE

Both versatile and durable, Dropzone Speckle is a single-ply high density rolled flooring made from recycled ground rubber and colored EPDM rubber chips. The product ensures excellent traction and sound insulation and is available in a wide selection of colors. Dropzone Speckle is best suited for weight rooms, fitness centers and training centers.

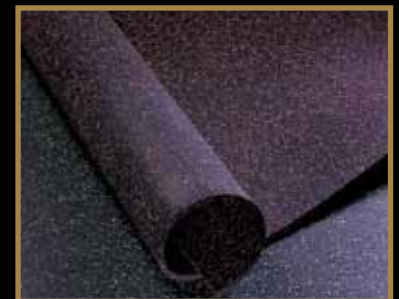

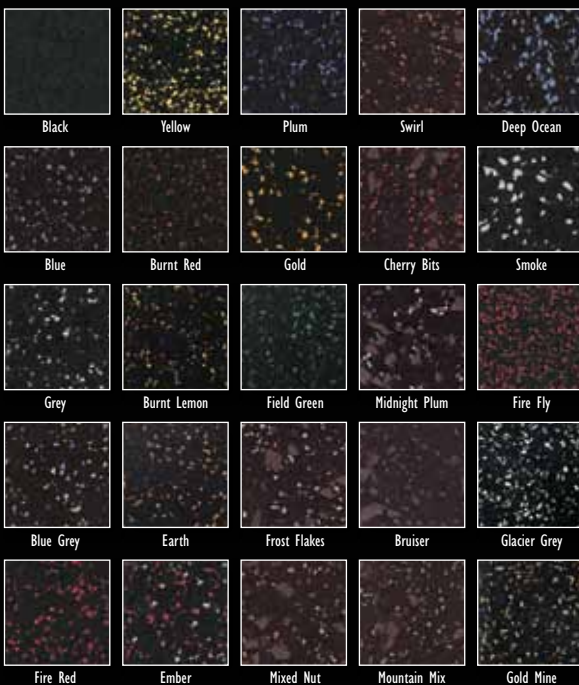

Dropzone Speckle is available in the following designer colors:

TILE: 24" x 24"

ROLL: 48" x 8mm

DROPZONE FLEX

Designed with a speckled finish, dual virgin rubber top layer and a recycled rubber bottom layer, Dropzone Flex is a durable and resilient speckled tile that will satisfy both your functional and aesthetic needs. The product's unique Hammer Top finish provides for quick and easy maintenance.

Dropzone Flex is best suited for weight rooms, fitness centers and training centers.

Dropzone Flex is available in the following designer colors:

Dropzone Flex is available in square edge and interlocking tiles.

TILE: 24" x 24"

DROPZONE ELITE

The ultimate in triple threat resilient flooring, Dropzone Elite provides you with the look, feel and protection you need. With several colors to choose from, you can create a facility that not only feels great but looks great too!

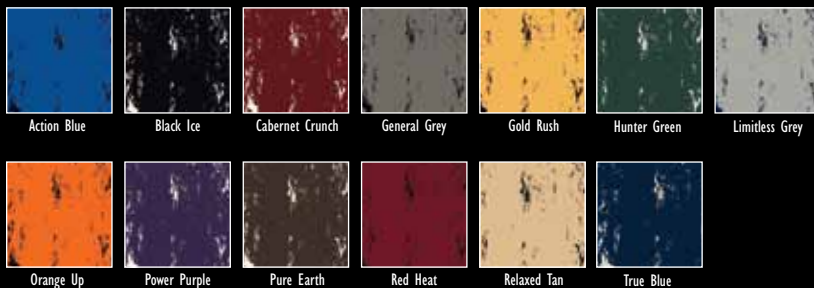

Dropzone Elite is manufactured with a virgin rubber top-layer vulcanized to a recycled rubber base layer. This ensures a very durable, non-porous floor finish that provides for ideal sub-surface protection, athletic safety, sound insulation and ease of maintenance. The product's surface layer has been engineered with micro-grooves which provide for ideal levels of tractional support while reducing the likelihood for slipping.

Dropzone Elite is our most durable and resilient flooring option. Designed with MuscleMemory, Dropzone Elite is extremely resistant to impact indentation and automatically restores its shape once the weight or load is removed. This unique resilient flooring technology not only extends the look and lifespan of the product but also works to preserve the integrity of your subsurface flooring and the quality of your weights.

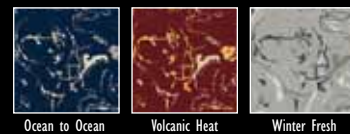

Whether it's for your weight room, fitness center, training center, locker room or skating rink, Dropzone Elite has got you covered.

Dropzone Elite is available in the following designer colors:

Dropzone Elite Swirl is available in the following designer colors:

Dropzone Elite is available in square edge and interlocking tiles.

TILE: 24" x 24"

DROPTILE

As the thickest product in the Dropzone family, the 1" thick Dropzone Droptile provides for supreme durability in addition to maximum vibration absorption and noise reduction. Whether it is for weights or equipment, you can be sure that the Droptile will provide the perfect level of ongoing support without signs of wear.

The Dropzone Droptile has been designed and constructed with Dropzone's unique ReEnergization. This special subsurface construction provides for ample energy restitution and absorption, keeping the training staff comfortable on their feet for extended periods of time. Thanks to the distinct elevated profile of Droptile's subsurface, wires and cables can now be fully integrated beneath the surface preventing cable clutter.

The Dropzone Droptile features a patented colored wear layer available in a wide range of options, making it as comforting on the eyes as it is on the body. The 24" x 24" x 1" Droptiles can easily be installed over an existing or new surface with or without the use of adhesive.

Dropzone's Droptile is best suited for weight rooms and fitness and training centers.

Dropzone Tile is available in the following designer colors:

Black

Rain

Rain Storm

Pebble

Cherry Blast

TILE: 24" x 24"

MAINTENANCE MADE EASY!

Tarkett Sports' Dropzone product line is quick and easy to maintain. In just two simple steps you will be able to extend the lifespan of your Dropzone product by removing unwanted dirt, dust and debris.

Step 1. Clean floor with a damp mop using a PH neutral cleaner diluted in water.

Step 2. Ensure that any moisture is immediately extracted after cleaning.

DROPZONE LOGO CUSTOMIZATION

Bring a unique sense of pride and identity to your facility with Tarkett Sports' Dropzone Logo Customization. Using a state-of-the-art Ultra Sonic Cutter we are able to insert a logo, tag line or any other special detail directly into your Dropzone or Dropzone Elite surface.

For your added convenience, Tarkett Sports has a complete in-house design team that is ready to assist you through the logo and design customization process.
